

Bulletin of Advanced Course of Akashi National College of Technology

NO.10 (March)

CONTENTS

Effect of Surface Oxidization on Porous SiliconYusuke AOI	(1)
Reverisble Watermarking Based on the Correlation of ImageYuya KATAOKA	(7)
Research on Aerodynamic Characteristics of Micro Air Vehicle WingHiromi KOHATSU	(13)
Maze Wall Information Acquisition Using Image DataHatsumi KOBAYASHI	(19)
Formation of film by ink-jet method and comparison with bar-coated filmsToshiyuki SAITOH	(25)
Iterative method for designing an observer-based mixed H_2/H_∞ controllerMasaaki SAWAI	(31)
Examination on the Propagation Properties of Ultrasound Wave in Cancellous Bone by Numerical SimulationAkihiro SHIBATA	(37)
Numerical Simulation of Pressure Loss of Rectangular Tubu by Finite Difference Lattice Boltzmann MethodAtsushi NAGANO	(43)
XML Labeling Methods using Improved Dewey Order MethodTaisuke FUJIMOTO	(49)
Development of an aerial robot and self-localization methods aiming to collect disaster informationTetsuro YANASEKO	(55)
Fundamental Study on the Ultimate Bending Strength of Girders Made of Glued Laminated Timber Inside Steel TubingKohei AKUI	(61)
BOYCOTT'S EFFECT ON SUBSIDENCE AND SEDIMENTATION OF PC GROUTTaku IWATA	(67)

Communitarian housing project in Osaka traditional commercial neighborhood -A study on Kujo down town area life style-Yuko KAKUDA (73)
Universal design of a town through community based making maps -A case study on a traditional town ,Higashifutami in Akashi City-Yuki KOIZUMI (79)
The mitigating method of stress concentration in an OR tire crack rootYusuke KOTO (85)
Sharing activities(Project) -Meimai housing complex regeneration project-Masahiro SANGA (91)
The actual condition and the problems of accessibility in Shinto shrines and Buddhist templesKyoko TAKENAKA (97)
Strength Characteristics of Muddy Soils mixed with Iron and Steel Slag	...Hiroyuki NAKAGAWA (103)
Hilltop crematoriumNaho MAKI (109)
Elementary school and Junior high school actual accessibility conditions -Case studies in Kobe and Akashi city-	...Takashi MATSUMOTO (115)
Study on Transmission Characteristics by Vertical Circular Cylinders as a Breakwater	...Kiyotaka MUTAHARA (121)
Experimental study on Hydraulic Characteristics of a Head Drop Utilizing Vertical ShaftAzusa MORITA (127)
The bending performance of the post with partial-loss of sectional area on Sashigamoi structureSachiko WADA (133)
